Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☐ **Time Extension Request**

Specific years requested _

Is this a second request? ☐ No ☐ Yes Specific years requested. _

(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☒ **Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).**

Specific ADR requested _33_%, for the years _through December 2003_.

Is this a second ADR request? ☒ No ☐ Yes Specific ADR requested _%, for the years _

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

The City of San Joaquin is requesting an alternative diversion, mainly due to our population and rural status. The City has participated in many recycling activities in the past five years. The programs selected SRRE have reduce disposal for the city but not fifty percent. Some of the barriers in reaching the 50% percent are: increasing population due to aggricuture, a small rural population (3,000), aggricultural business open 2-3 months of a year.

The cities population increases durring the summer months by 25% to 35%. This increase in population is directly related to aggricuture seasons. The population is made up of farm labors.

The eduction programs are being expanded from classrooms to single family homes. Educational materials are mailed to all homes bi-monthly.

The aggricuture in our commnuity is the backbone, we are continuing to work with them to recycle cardboard, and fruit culls. There presence in our community is only 3 months out of the year.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

The City of San Joaquin is requesting an ADR over a time extension due to the elements that profile San Joaquin as a rural city. The population of San Joaquin is 3,300, located in Fresno County. The demographics are primarily hispanic and mostly farm labors.

San Joaquin has had a curbside recycling program for many years, as well as commercial recyling. Durring the past year San Joaquin has developed a stronger curbside program and commercial programs

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

San Joaquin has implemented new recycling programs in the year 2001T. We have also expanded current programs to increase our recycling rate.

Curbside Recycling has been expanded from an 18 gallon can to a 96 gallon commingle picked up once a week curbside.

School Recycling has been implemented on a classroom level. Each room has an 18 gallon can which monitored by a the teacher and emptied when full.

Commercial Recycling has been expanded to include 3 days a week cardboard pick up and commercial commingle recycling pick up weekly (96 galllon).

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

In March of 2001 the city contracted a new solid waste and recycling hauler. The new hauler has expanded many recycling programs in effort to increase the recycling rate. The new hauler keeps records of all recycling and solid waste removed from the city. The City's public works staff also recycles all road construction projects and collects cardboard 3 times a week. The cities public works yard also supervises the green waste drop off.

The biggest problem facing San Joaquin is the population increase durring the aggriculture seasons. Durring these months the populaion increase is not acquainted with the recycling programs and durring those months we can see a drop in our diversion rate

Section IV B—GOAL ACHIEVEMENT

Goal Achievement describes the activities the jurisdiction will use to achieve the ADR.
